## Reasons To Clean

- **Corrosion** - If not cleaned, dirt, grease, and oil will slowly degrade the quality or integrity of the metal and coated surface
- **Safety** - Clean escalators are important to avoid injuries due to sticky or slippery surfaces
- **Maintenance Costs** - A clean escalator will save you money over time and significantly extend the life of your equipment
- **Visual Impact** - An escalator is many times one of the first things visitors will notice upon entering. A positive first impression leaves a positive perception of your facility or company

## Our Guarantee

- Efficiently deep cleans steps and/ or risers
- Removes tough dirt & grease
- Saves time and avoids customer inconvenience
- No need to remove & power wash steps
- Convenient cleaning time based on your schedule

Midwest, a local, family-owned business, has been serving the elevator industry for 25+ years. We provide escalator cleaning service in Minneapolis / St. Paul and the surrounding area, utilizing the escalator cleaning machines: APOLLO Z700™ and Mach line EC510. We are a licensed elevator contractor with certified QEI professionals.
